## INTRODUCTORY SECTION

# City of Canton

March 18, 2014

Honorable Mayor and City Council  
City of Canton  
Canton, Texas

Dear Mayor and Council Members:

The Comprehensive Annual Financial Report (“CAFR”) of the City of Canton, Texas, for the year ended September 30, 2013, is submitted herewith.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that is established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Conway Company CPAs, P.C. have issued an unqualified opinion on the City of Canton, Texas’ financial statements for the year ended September 30, 2013. The independent auditor’s report is located in the beginning of the financial section of the CAFR.

This letter of transmittal is designed to compliment Management’s Discussion and Analysis (“MD&A”) and should be read in conjunction with it. The City’s MD&A can be found immediately following the independent auditors’ report and provides a narrative introduction, overview and analysis of the basic financial statements.

## GENERAL INFORMATION – CITY OF CANTON

The City of Canton is located in Van Zandt County which is located in the Northeast region of Texas. The City was incorporated under the provisions of H.B. 901 of the Texas Legislature.

The City Council is comprised of a mayor and five council members and is responsible for enacting ordinances, resolutions, and regulations governing the City, as well as appointing the members of various statutory and advisory boards, City Manager and City Attorney. The City Manager is the Chief Administrative Officer of the government and is responsible for the enforcement of laws and ordinances, the appointment and supervision of the executive directors, and heads of departments, and the performance of functions within the municipal organization.

## ECONOMIC CONDITIONS AND OUTLOOK

Canton, Texas is a commercial center built on tourism, retail, agricultural, light manufacturing, and governmental activity. Given Canton’s pro-business attitude, the City continues to prosper economically. Highlights include:

Canton is home to First Monday Trade Days, one of the largest flea markets in the nation, which has provided economic benefits to the City since its opening over *one hundred and fifty* years ago. In the mid 1960’s, the operations were organized and managed by the City of Canton which generated direct rental revenue and indirect sales tax revenue. Since that time, additional private First Monday properties have been developed. The City continues to receive a steady revenue stream from its First Monday operations and the sales tax revenue has continued to increase annually.

**Home of the World Famous First Monday Trade Days**  
**Begins Thursday Before Each First Monday**

Canton is also a Texas and National Main Street City, as well as a Certified Retirement Community. As the County seat, Canton's vital downtown district is centered around the Van Zandt County Courthouse and features the Plaza Museum, quaint boutiques, shops, eateries, a bed & breakfast, and professional service businesses. The community is also uniquely qualified and marketed as an excellent retirement community with quality-of-life features desired by retirees.

In addition to the economic activity derived from First Monday Trade Days and as a weekend destination, Canton is a business and retail center for residents throughout the County and area. It supports a wide variety of motels, Bed & Breakfast establishments, restaurants, retail stores, wholesale businesses, financial institutions, healthcare facilities, professional and business services, and manufacturing companies.

### MAJOR INITIATIVES

In FY 2012-2013, several projects affecting the City's economic outlook were initiated and/or completed. Fiber optics and new wi-fi services were expanded in the community enhancing internet capabilities necessary to support businesses. Also, Canton recently installed a major sewer trunk line for future development along a relatively undeveloped 2.5-mile section of Interstate 20. This line served its first new business, Duke's Travel Plaza, which has been very successful and is already scheduled for expansion. Several other commercial developments were initiated: an 80-unit affordable housing development, a 48-unit assisted living facility, a 30,000 square foot retail/wholesale warehouse, a new branch bank, and an added attraction at Splash Kingdom waterpark. Turnover in the Downtown District also resulted in several new eateries, shops and small businesses.

The City continued its own development and preparations for the future. In light of the economic downturn, the City of Canton has been budgeting and planning conservatively for many years. It funds most of its capital projects with the \$1 million annual profits generated by the First Monday Department. It also looks to grant and economic development sales tax funding options for several major projects including another phase of the downtown sidewalk renovation project; continuation of the East Outfall project; the drilling of a new water well, and initiation of a new water tower project. The City also continued upgrading its infrastructure, continued replacing the West Outfall sewer line, and completed over \$1 million in improvements to the wastewater treatment plant. It also continued remodeling the Fire Station and making improvements to First Monday Trade Days with road, bridge and facility improvement projects.

In FY 2013-14, increased economic development is expected to continue with the completion of the assisted living facility, affordable housing development, warehouse, bank, and Duke's Travel Plaza expansion, as well as a new Subway sandwich shop, groundwork on a site for the Lewis Chevrolet dealership, and planning for the renovation of an apartment complex. Ongoing negotiations also continue with several businesses, retailers, and hotel and restaurant chains. Major improvements by the City will continue with another phase of the downtown sidewalk project, additional phases of the East and West Outfall sewer line projects, completion of a new elevated water storage tank, installation of a major water main looping around Downtown, and installation of high service pumps at the water treatment plant. The City will also begin construction on a new revenue-generating building for vendors at First Monday Trade Days.

### FINANCIAL INFORMATION

#### Accounting Procedures and Budgetary Controls

The City's accounting records for general government are maintained on a modified accrual basis, with revenues being recorded when available and measurable, and expenditures being recorded when the services or goods are received and the liabilities are incurred. Accounting records for the City's water and sewer utility and other proprietary activities are maintained on the accrual basis.

The budgetary process begins each year with the preparation of both current and proposed year revenue estimates by the City's financial management staff, and expenditure estimates by each City department. Budgets are reviewed by the council. The City Manager makes final decisions and submits a recommended budget to the City Council.

As part of each year's budget development process, departments are required to update expenditure estimates for the current fiscal year. These estimates are reviewed by the Mayor, City Manager, and the City Council concurrent with review of the proposed budget. This re-estimated budget may require a supplemental appropriation and, if so, such supplemental appropriation is approved by ordinance adopted by the City Council prior to the end of the current fiscal year.

### General Governmental Functions

Tax Rates: All eligible property within the City is subject to assessment, levy and collection by the City of a continuing, direct ad valorem tax sufficient to provide for the payment of principal and interest on outstanding debt within the limits prescribed by law, and the payment of operation and maintenance costs as approved by the City Council. The City's tax rate history as adopted by the City Council is shown below:

<u>Fiscal Year</u>	<u>Tax Rate</u>
2007-2008	.4252300
2008-2009	.4252300
2009-2010	.4252300
2010-2011	.4252300
2011-2012	.4252300
2012-2013	.4252300

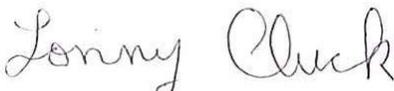

### OTHER INFORMATION

Independent Audit The City of Canton has engaged the firm of Conway Company CPAs, P.C. to perform the annual audit and their opinion has been included in this report. It should be noted that the auditors included all funds in their audit, performed their audit in accordance with generally accepted auditing standards, and stated that, in their opinion, the statements herein present fairly, in all material respects, the financial position of the City at September 30, 2013, and the changes in financial position and cash flows of its proprietary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Acknowledgements Many persons are responsible for the preparation of this report, and for the maintenance of records upon which it is based. Appreciation is expressed to the City employees throughout the organization, especially those employees of the Accounting Department who were instrumental in the successful completion of this report.

Our appreciation is also extended to the Mayor and members of the City Council for providing the resources necessary to maintain the integrity of the City's financial affairs.

Respectfully submitted,

Lonny Cluck  
City Manager

**Independent Auditor's Report**

Mayor and City Council  
City of Canton  
P.O. Box 245  
Canton, Texas 75103

Members of the City Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Canton, Texas ("City") as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Canton, Texas, as of September 30, 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the TMRS Funding Progress and Contributions and the General Fund budgetary comparison schedule on pages 5 to 15, 53 and 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Canton, Texas' basic financial statements. The introductory section, combining and individual non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Other Reporting Required by *Government Auditing Standards***

In accordance with Government Auditing Standards, we have also issued our report dated March 18, 2014, on our consideration of the City of Canton, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Canton, Texas' internal control over financial reporting and compliance.

Respectfully Submitted,

**CONWAY COMPANY CPAs, P.C.**

*Conway Company CPAs, P.C.*

## CITY OF CANTON, TEXAS

### MANAGEMENT DISCUSSION AND ANALYSIS

SEPTEMBER 30, 2013

As management of the City of Canton, we offer readers of the City of Canton's financial statements this narrative overview and analysis of the financial activities of the City of Canton for the fiscal year ended September 30, 2013. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the City's financial statements, which follow this narrative.

#### Financial Highlights

- The assets of the City exceeded its liabilities at the close of the fiscal year by \$32,062,606 (net position). Of this amount \$23,763,282 is net investment in capital assets. Net position restricted for specific purposes is \$189,789. The remaining amount of \$8,109,535 (unrestricted net position) may be used to meet the City's ongoing obligations to its citizens and creditors in accordance with fund designation and fiscal policies.
- The City's total net position increased by \$1,452,891, excluding prior period adjustments. The majority of this increase is attributable to revenues exceeding expenditures by 15%.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$2,887,282, an increase of \$373,491 in comparison with the prior year. Approximately 62% of this total amount, or \$1,795,405 is available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$1,795,405 , or 49%, of total general fund expenditures. The increase in fund balance for the General Fund in the amount of \$546,578, is due to a slight increase in sales tax revenues and an increase of \$571,347 in transfers from the Water and Sewer Funds.
- The City's total long-term debt decreased by (\$1,031,675), or 13%, during the current fiscal year due to payments on previous years debt.

#### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Canton's basic financial statements. The City's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The report also contains other supplementary information in addition to the basic financial statements.

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Basic Financial Statements**

The first two statements (pages 19-21) in the basic financial statements are the **Government-wide Financial Statements**. They provide both short and long-term information about the City's financial status.

The next statements (pages 22-28) are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the City's government. These statements provide more detail than the government-wide statements. There are two parts to the Fund Financial Statements: 1) the governmental funds statements; and 2) the proprietary fund statements.

The next section of the basic financial statements is the **notes** on pages 29-49. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, **required supplemental information** is provided to show details about the City's pension plan and budgetary comparison schedule on pages 53-54.

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide the reader with a broad overview of the City's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the City's financial status as a whole.

The statement of net position presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in these statements for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both the statement of net position and the statement of activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis used in prior reporting methods.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; and 3) component units. The governmental activities include most of the City's basic services such as public safety, parks and recreation, and general administration. Property and sales taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the City charges customers to provide. These include the utility services offered by the City and First Monday. The final category is the component unit.

The government-wide financial statements are on pages 19 - 21 of this report.

**Fund Financial Statements**

The fund financial statements provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like all other governmental entities in Texas, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the City's budget ordinance. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

*Governmental Funds* – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the City’s basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* which provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the City’s programs. The relationship between government activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in government-wide financial statements. By doing so, readers may better understand the long-term impact of the government’s near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Debt Service Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report. The Governmental Fund financial statements can be found on pages 22-25 of this report.

The City adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the City, the management of the City, and the decisions of the council about which services to provide and how to pay for them. It also authorizes the City to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the City complied with the budget ordinance and whether or not the City succeeded in providing the services as planned when the budget was adopted. The budgetary comparison schedule uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the legal budget document. The schedule shows four columns: 1) the original budget; 2) the final budget as amended by the council; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

*Proprietary Funds* – The City has three types of proprietary funds which are the Water and Sewer Fund, Sanitation Fund and First Monday Fund. The City charges customers for the services it provides, whether to outside customers or to other units within the City. These services are generally reported in proprietary funds. Proprietary Funds are reported in the same way that all activities are reported in the statement of net position and the statement of activities. Because these services benefit both governmental as well as business type functions, they have been included in both the governmental and business-type activities in the government-wide financial statements.

Proprietary Funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 26-28 of this report.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 29 – 49 of this report.

**Required Supplementary Information** – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the City’s progress in funding its obligation to provide pension benefits to its employees as well as a budget comparison schedule.

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Supplementary Information** – The Debt Service budget comparison schedule and the combining statements referred to earlier in connection with the non-major governmental funds are presented immediately following the required supplementary information on pensions. These schedules can be found on pages 57 – 59 of this report.

**New Pronouncements** – The following statements for GASB were effective for the City in the fiscal year ending September 30, 2013:

GASB Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements" was issued to improve financial reporting by addressing issues related to service concession agreements (SCAs), which are a type of public-private or public-public partnership. The implementation of this statement had no effect on the financial statements.

GASB Statement No. 61, "The Financial Reporting Entity: Omnibus-an amendment of GASB Statement No. 14 and No. 34" modifies certain requirements for inclusion of component units in the financial reporting entity and clarifies the manner in which that determination should be made and the types of relationships that generally should be considered in making the determination. The statement also amends the criteria for blending component units and provides additional guidance for blending a component unit if the primary government is a business-type activity and clarifies the reporting of equity interests in legally separate organizations. The implementation of this statement had no effect on the financial statements.

The GASB has issued the following statements which will be effective in future years as described below:

GASB Statement No. 66, "Technical Corrections – 2012 – an amendment of GASB Statement No. 10 and No. 62", will be implemented by the City as required by GASB during the fiscal year ending September 30, 2014. This statement improves financial reporting by resolving conflicting accounting and financial reporting guidance that could diminish the consistency of financial reporting and thereby enhance the usefulness of the financial reports. This statement amends Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", by removing the provision that limits fund-based reporting of an entity's risk financing activities to the general fund and the internal service fund type. This statement also amends Statement No. 62 by modifying the specific guidance on accounting and operating leases. The implementation of this statement will not result in any changes to the financial statements.

GASB Statement No. 67, "Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25 will be implemented as required by GASB during the fiscal year ending September 30, 2014. The objective of this statement is to improve financial reporting by state and local government pension plans. The City is currently evaluating potential changes to the financial statements as a result of the implementation of this statement.

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27", will be implemented as required by GASB during the fiscal year September 30, 2015. The objective of this statement is to improve accounting and financial reporting by state and local government pensions and improve the decision-usefulness of information contributing entity financial reports and will enhance its value for assessing accountability and interperiod equity by requiring recognition of the entire net pension liability and a more comprehensive measure of pension expense. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. Note disclosure and required supplementary information requirement about pensions also are addressed. This statement requires the liability of employers and nonemployer contributing entities to employees for defined benefit pensions (net pension liability) to be measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the pension plan's fiduciary net position. The City is currently evaluating potential changes to the financial statements as a result of the implementation of this statement.

Net position:						
Net investment in capital assets	9,664,211	9,103,788	14,099,071	13,004,997	23,763,282	22,108,785
Restricted	91,213	1,022,432	98,576	81,223	189,789	1,103,655
Unrestricted	2,553,020	1,151,798	5,556,515	6,236,090	8,109,535	7,387,888
Total net position	<u>\$ 12,308,444</u>	<u>\$ 11,278,018</u>	<u>\$ 19,754,162</u>	<u>\$ 19,322,310</u>	<u>\$ 32,062,606</u>	<u>\$ 30,600,328</u>

As noted earlier, net position may serve over time as one useful indicator of a City's financial condition. The net position of the City exceeded liabilities by \$32,062,606 as of September 30, 2013. The City's net position increased by \$1,452,891, excluding prior period adjustments, for the fiscal year ended September 30, 2013.

*Net investment in capital assets:*

The largest portion of the City's net position, 74%, reflects the investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt still outstanding that was issued to acquire those items. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of outstanding related debt, the resources needed to repay that debt must be provided by other sources since the capital assets cannot be used to liquidate these liabilities.

*Restricted net position:*

The restricted net position of \$189,789, or .59%, of total net position represents resources that are subject to external restrictions on their use, or by enabling legislation. Restricted net position is comprised of state and contractually imposed restrictions which are \$38,213, or 20%, for court fees and obligations for debt of \$151,576, or 80%.

*Unrestricted net position:*

Unrestricted net position of \$8,109,535 is available to fund City programs to citizens and debt obligations to creditors. The majority of unrestricted net position resides in the Business-type activities.

Governmental activities increased net position, excluding prior period adjustments, by \$992,654. This is due to revenues collected being 9% more than actual expenditures. The City continues to strive to increase the net position each year with good financial management.

Business-type activities increased net position, excluding prior period adjustments, by \$460,237. The revenues collected were 20% more than actual expenditures; however, transfers from governmental activities increased \$571,347.

**CITY OF CANTON, TEXAS  
 MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
 SEPTEMBER 30, 2013**

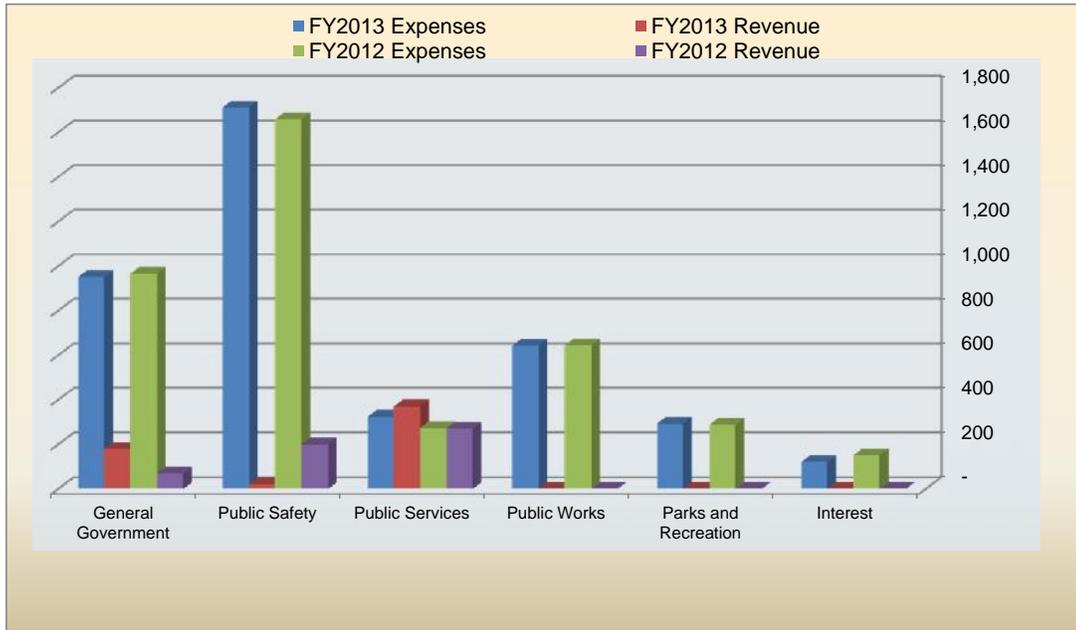

**Governmental-type activities** - Governmental-type activities increased the City's net position by \$992,654, excluding prior period adjustments. A key elements of this increase is as follows:

Sales tax revenues increased \$128,973, or 5%.

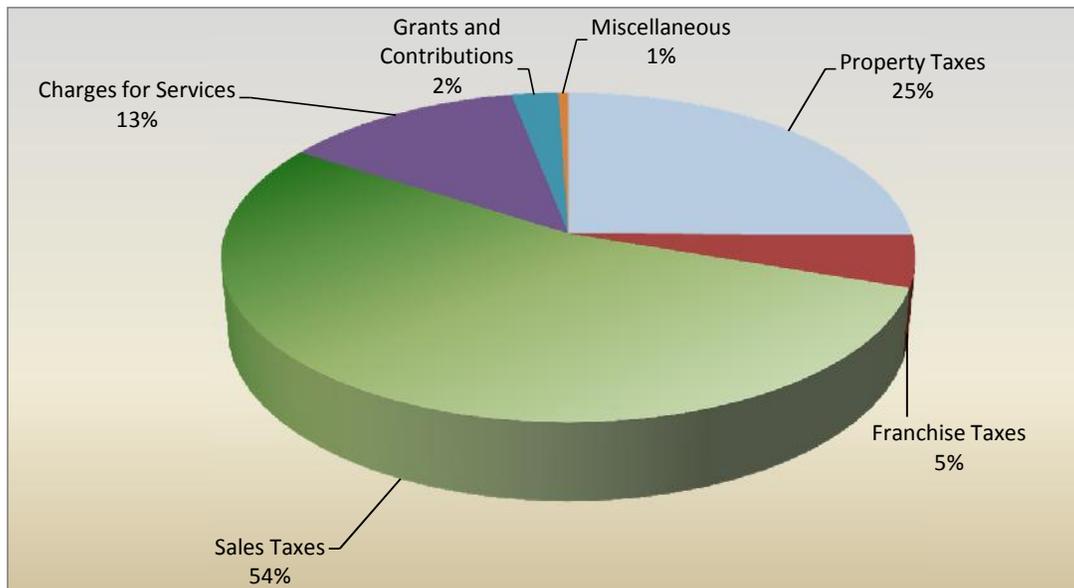

Transfers from the Water and Sewer Fund increased by \$571,347, or 96%.

**Expenses and Program Revenues - Governmental Activities**

(amounts expressed in thousands)

**Revenues by Source - Governmental Activities**

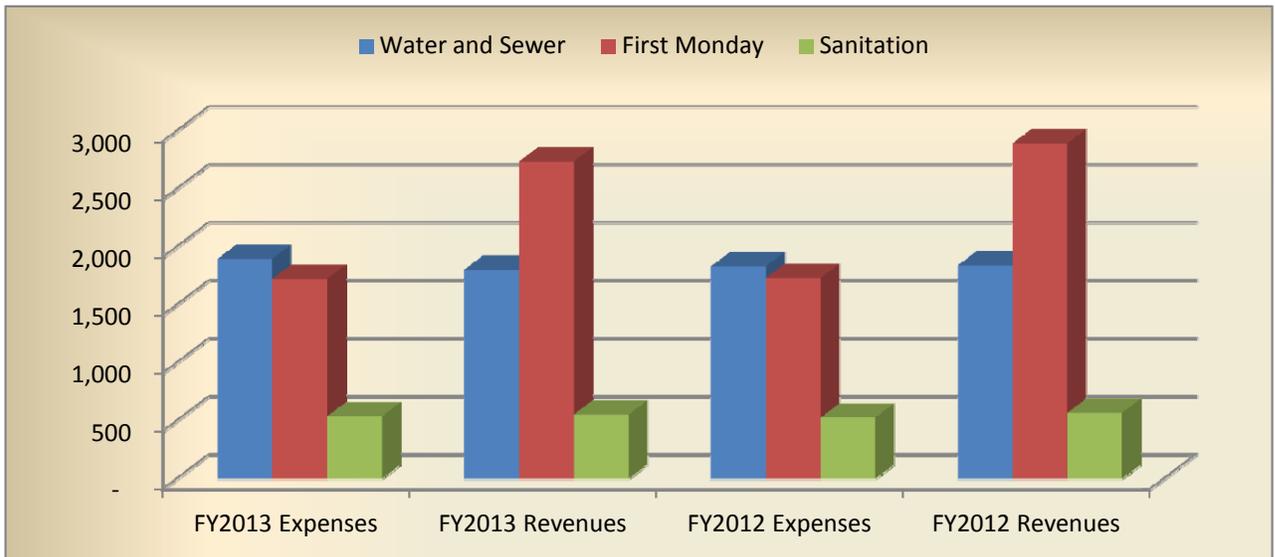

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Business-type Activities** - Business-type activities increased the City of Canton's net position by \$460,237, excluding prior period adjustments. Key elements of this increase are as follows:

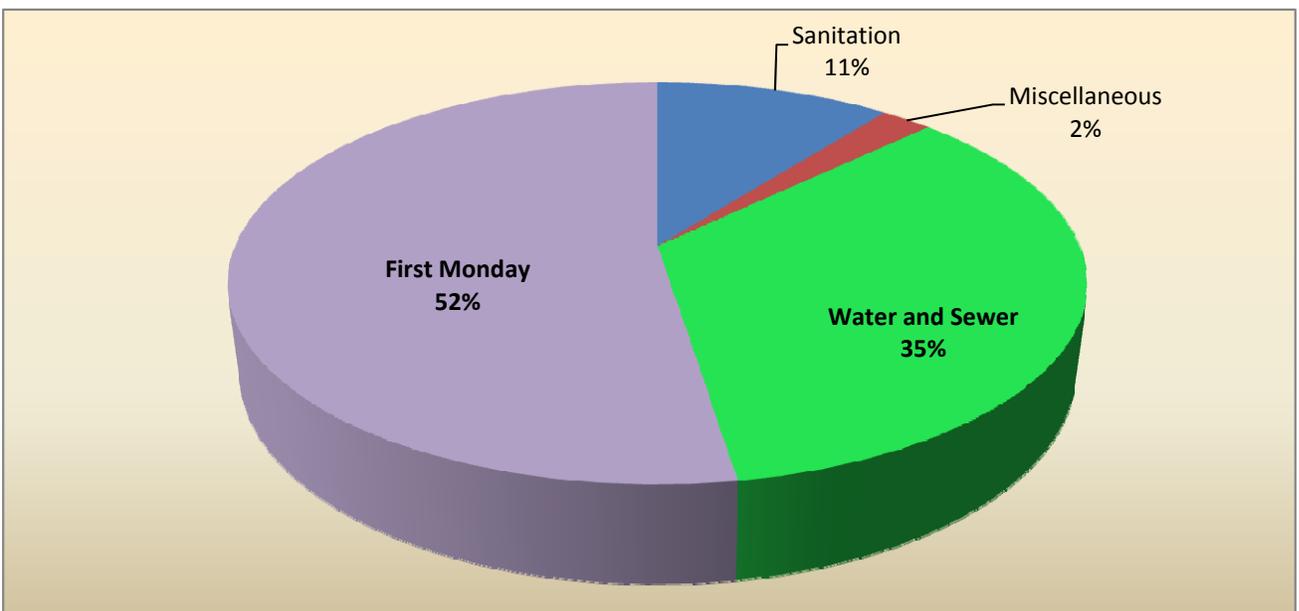

Prior year's net position included intergovernmental revenues from Canton Economic Development in the amount of \$4,238,441. The current year's total revenues were 2% more than the total expenditures that resulted in the increase in net position. There is a slight decrease in charge for service revenues of (\$207,545).

**Expenditures and Program Revenues - Business-type Activities**

(amounts expressed in thousands)

**Revenues by Source - Business-type Activities**

**CITY OF CANTON, TEXAS  
MANAGEMENT AND DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Financial Analysis of the City's Funds**

As noted earlier, the City of Canton uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** - The focus of the City of Canton's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the City's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending as they represent the portion of fund balance which has not been limited to use for a particular purpose by either an external party, the City itself, or a group or individual that has been granted authority to assign resources for a particular purpose for the City.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$1,795,405, an increase of 48% in comparison with the prior year.

The restricted fund balances of \$1,091,877, consist of amounts with constraints put on their use by externally imposed creditors, grantors, contributions, laws, regulations or enabling legislation. Obligations for long-term debt is \$988,269, or 91%, and debt proceeds for capital expenditures of \$65,395, or 6%, account for the majority of restricted fund balances. Restrictions imposed by legislation amounts to \$38,213, or 3.5%.

Unassigned fund balance of \$1,795,405 represents the residual classification for the City's General Fund.

It is the City's goal to achieve and maintain an unassigned fund balance in the General Fund equal to 16.67% of expenditures. At the end of the current fiscal year, the City achieved 49%.

**General Fund Budgetary Highlights:** During the fiscal year, the City revised the budget on two occasions. Generally, budget amendments fall into one of three categories: (1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and (3) increases in appropriations that become necessary to maintain services.

Revenues were slightly more than the budgeted amounts in most classifications. Expenditures were less than budgeted amounts at the fund level.

**Proprietary Funds** - The City of Canton's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net position of the proprietary funds at the end of the fiscal year amounted to \$5,556,515.

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Capital assets** - The City of Canton's investment in capital assets for its governmental and business-type activities as of September 30, 2013, totals \$29,001,159 (net of accumulated depreciation). This investment in capital assets includes buildings, roads and bridges, land, machinery and equipment. The total increase in the City of Canton's investment in capital assets for the current fiscal year was 5%.

Major capital asset events during the current fiscal year included the following:

- Improvements to water well #3 pump station
- Continuation of improvements to wastewater treatment plant
- Construction began of the water storage facility

**CITY OF CANTON, TEXAS  
MANAGEMENT DISCUSSION AND ANALYSIS (continued)  
SEPTEMBER 30, 2013**

**Economic Factors and Next Year's Budgets and Rates**

The FY 2013-14 budget incorporates a property tax rate of \$0.420332 per \$100 valuation. This is the effective tax rate which is slightly lower than the previous year. Canton's certified taxable value for fiscal year 2014 is \$264,542,556, a \$2,009,214, or 0.77%, increase over last year's values.

In light of the economic downturn, the City has been budgeting and planning conservatively for many years. FY2014 includes conservative flat revenue projections for two of the largest revenue streams - sales taxes and First Monday revenues. Maintenance and operation budgets are justified from the ground up. The budget is lean but accurate. Most capital projects are funded on a pay-as-you-go basis using First Monday's \$1 million annual profits. The City has also continued to be aggressive in seeking alternative funding. Grants have been secured to continue another phase of the East Outfall sewer line project, complete the 4th phase of the downtown sidewalk renovation project, develop a new walking/running trail around Mill Creek Lake, add another leg of the walking trails at Cherry Creek Park, and renovate City Hall to remove architectural barriers. The City is also seeking funding to make improvements to the municipal airport. In FY2014, the City will complete a new water tower, install a major 12" water main around downtown to alleviate stress from the new tower on older lines, and install new high service pumps at the Water Plant to supply the new tower. These combined projects will increase our City's water storage capacity, provide better water pressure and volume, and enhance firefighting capabilities. The City will also continue upgrading its infrastructure, streets and utilities, as well as continue to invest in First Monday by building a new revenue-generating building for vendors.

In fiscal year 2014, increased economic development is expected to continue which will impact sales tax and property tax revenues. In addition to the recently opened Applebee's restaurant, Duke's Travel Plaza, and a 129-bed care/rehab facility, developers should complete an 80-unit affordable housing development, a 48-unit assisted living facility, a 30,000 square foot retail/wholesale warehouse, a new branch bank, expansion of Duke's Travel Plaza, and an added attraction at Splash Kingdom water park. Economic negotiations are also ongoing with businesses, retailers, and hotel and restaurant chains. In addition, voters will be deciding on whether or not to legalize the sale of beer and wine for off-premise consumption and mixed beverages by restaurant certificate holders in the City. If it passes, the City may see additional development and an increase in sales tax, beverage tax, and property tax revenues.

**Requests for Information**

This report is designed to provide an overview of the City's finances for those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Canton, Finance Department, P O Box 245, Canton, Texas 75103.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF NET POSITION  
SEPTEMBER 30, 2013**

Total fund balances - governmental funds balance sheet	\$ 2,887,282
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	16,530,030
Accumulated depreciation has not been included in the governmental fund financial statements.	(4,145,804)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the governmental fund financial statements, an expenditure is reported when due.	(25,774)
Revenues earned but not available within sixty days of the year end are not recognized as revenue on the fund financial statements	41,133
Premiums and discounts on issuance of debt were not recognized on the balance sheet for governmental funds.	1,159
Accrued liabilities for compensated absences have not been reflected in the fund financial statements.	(193,013)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the fund financial statements.	(2,786,569)
Net position of governmental activities - statement of net position	<u>\$ 12,308,444</u>

**CITY OF CANTON, TEXAS  
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

Net change in fund balances - total governmental funds	\$ 373,491
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	421,675
Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in the governmental funds.	(535,890)
Premium and discounts are recognized in the fund financial statements as other financing sources or uses but these are amortized over the term of the bonds in the government-wide financial statements.	1,432
Current year long-term debt principal payments on contractual obligations, and bonds payable are expenditures in the fund financial statements but are shown as reductions in long-term debt in the government-wide financial statements.	751,833
Current year changes in accrued interest payable do not require the use of current resources; therefore, are not reported as expenditures in governmental funds.	5,208
Current year changes in the long-term liability for compensated absences do not require the use of current financial resources; therefore, are not reported as expenditures in governmental funds.	(25,095)
Change in net position of governmental activities - statement of activities	<u>\$ 992,654</u>

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**A. Summary of Significant Accounting Policies**

The City of Canton ("City") was incorporated in 1919 and operates under a Council-Manager form of government with a City Council comprised of the Mayor & five Council members. Some of the services provided are: public safety (police and fire protection), water distribution, and general administration.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America ("GAAP") applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board ("GASB"), the American Institute of Certified Public Accountants in the publication entitled *State and Local Governments-Audit and Accounting Guide* and by the Financial Accounting Standards Board when applicable. The more significant accounting policies of the City are described below:

**1. Reporting Entity**

The City is a municipal corporation governed by an elected mayor and five-member council and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the City is a financial reporting entity as defined by GASB in its Statement No. 14, "The Financial Reporting Entity", as amended by GASB Statement No. 39 "Determining Whether Certain Organizations are Component Units".

Under GASB Statement No. 14, component units are organizations for which the City is financially accountable and all other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Financial accountability exists if the City appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the City. The City may be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on the City. The financial statements of the component unit may be discretely presented in a separate column from the primary government or blended with the financial statements of the primary government. GASB Statement No. 39 added clarification to GASB Statement No. 14 by including entities which meet all three of the following requirements:

1. The economic resources received or held by the separate organization are entirely for the direct benefit of the primary government, its component units, or its constituents.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

The financial statements of the following component unit has been "discretely presented" in the accompanying report because (i) their governing boards are not substantially the same as the governing body of the City, or (ii) the component unit provides services entirely or almost entirely to the citizenry and not the City.

**Discretely presented component units.** The City has one component unit, Canton Economic Development Corporation ("CEDC"). The CEDC was incorporated March 12, 1997. The CEDC is governed by a seven-member board appointed by and serving at the pleasure of the City Council. Thus, the CEDC is legally separate, but due to the City appointing the voting majority of the CEDC board, it is classified as a discretely presented component unit. The funding for CEDC occurs by the City transferring 1/4 of sales tax collected by the City to the CEDC. Adding the creation of the CEDC to the resources currently available will more than double the current ability to assist economic development prospects. All of the CEDC funding can be used for direct assistance to prospects and continued development of infrastructure. The nature and significance of the relationship between the primary government and the organization is such that exclusion would cause the City's financial statement to be misleading or incomplete. Separate financial statements are also issued for CEDC. These financial statements can be obtained by contacting the Canton EDC located at 119 N. Buffalo Street, Canton Texas.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**A. Summary of Significant Accounting Policies**

**1. Reporting Entity (continued)**

In addition, GASB Statement No. 61 considers an organization that does not meet the financial accountability criteria may be included as a component unit if management's professional judgment determines it to be necessary and misleading if omitted. This evaluation includes consideration of whether a financial benefit or burden exists in the relationship between the entities. Management has not identified any additional organizations that fit this criteria.

**2 Basis of Presentation, Basis of Accounting**

The basic financial statements are prepared in conformity GAAP which requires the government-wide financial statements to be prepared using the accrual basis of accounting and the economic resources measurement focus. Government-wide financial statements do not provide information by fund, but distinguish between the City's governmental activities and business-type activities on the statement of net position and statement of activities. Significantly, the City's statement of net position include both noncurrent assets and noncurrent liabilities. In addition, the government-wide statement of activities reflects depreciation expenses on the City's capital assets, including infrastructure.

In addition to the government-wide financial statements, the City has prepared fund financial statements, which use the modified accrual basis of accounting and the current financial resource measurement focus for the governmental funds. The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Management's Discussion and Analysis provides an analytical overview of the City's financial activities. In addition, a budgetary comparison schedule is presented that compares the original adopted budget and final amended General Fund budget with actual results.

The City's basic financial statements include the accounts of all City operations. In evaluating how to define the government for financial reporting purposes, management has considered all entities for which the City is considered to be financially accountable. As required by GAAP, these financial statements present the City and its component unit, entities for which the City is considered to be financially accountable. The discretely presented component unit has been reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Public Safety, Public Works, Parks, etc.) or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or program. Program revenues include: a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or program, b) grants and contributions that are restricted to meeting the operational requirements of a particular function or program, or c) grants and contributions that are restricted to meeting the capital requirements of a particular function or program. Taxes and other items not properly included among program revenues are reported instead as general revenues. Internally dedicated revenues. Internally dedicated resources are also reported as general revenues rather than as program revenues.

The net cost (by function) is normally covered by general revenue (property and sales taxes, franchise taxes, and interest income).

Separate fund financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the funds financial statements. The major governmental funds are the general fund and the debt service fund. The major proprietary funds are the water and sewer fund, sanitation fund, and First Monday fund. GASB Statement No. 34 set forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and proprietary combined) for the determination of major funds. The non-major funds are combined in a column in the fund financial statements. The nonmajor funds are detailed in the combining section of the statements.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

A. Summary of Significant Accounting Policies

2 Basis of Presentation, Basis of Accounting (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to the general rule are franchise fees and other charges between the government's water and wastewater function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and wastewater business-type fund and the sanitation business-type fund are charges to customers for sales and services. The water and wastewater fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for business-type funds include the cost of sales and service, administrative expenses, and depreciation on assets. All revenues and expenses not meeting the definition are reported as non-operating revenues and expenses.

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on major individual funds of the governmental and proprietary categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

3. Measurement Focus, Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water and sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available when they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due and payable shortly after year end as required by GASB Interpretation No. 6.

Ad valorem, franchise and sales tax revenues recorded in the General Fund and ad valorem tax revenues recorded in the Debt Service Fund are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, contributions, and miscellaneous revenues are recorded as revenues when received in cash, as the resulting receivable is not measurable. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Intergovernmental grant revenues are recognized when all eligibility requirements have been met.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

A. Summary of Significant Accounting Policies

3. Measurement Focus, Basis of Accounting (continued)

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following is a description of the major governmental funds of the City:

The **General Fund** is the operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvements costs that are not paid through other funds are paid from the General Fund.

The **Debt Service Fund** is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid from taxes levied by the City.

Proprietary funds are accounted for on a flow of economic resources measurement focus. The accounting objectives are a determination of net income, financial position, and changes in cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its statement of net position.

Proprietary funds are financed and operated in a manner similar to a private business enterprise. The costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges. Periodic determination of revenue earned, expenses incurred, or net income is appropriate for capital maintenance, public policy, management control, accountability or purposes. The following is a description of the proprietary funds of the City:

The **Water and Sewer Funds** account for the operations of the water and sanitary sewer utilities which are self-supporting activities rendering services on a user-charge basis.

The **Sanitation Fund** accounts for the solid waste services of the City which is a self-supporting activity rendering services on a user-charge basis.

The **First Monday Fund** accounts for the operations of the City's First Monday Trade Days, which is a self-supporting service on a user-charge basis.

4. Financial Statement Amounts

a. Cash and Cash Equivalents

The City's cash and cash equivalents include cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City pools cash from all fund types (excluding certain restricted assets that are considered cash and cash equivalents) to increase the amount of funds available for investment. Investments held by the City that have a remaining maturity of greater than one year from purchase are carried at fair value. Interest earnings are allocated to the respective funds based upon each fund's relative balance in the pool. Each fund may liquidate its equity in the pool on demand.

b. Receivable and Payable Balances

The City believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation.

Trade and property tax receivables are shown net of an allowance for uncollectible.

**CITY OF CANTON, TEXAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**A. Summary of Significant Accounting Policies**

**4. Financial Statement Amounts**

**b. Receivable and Payable Balances (continued)**

Activity between funds is reported as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

All legally authorized transfers are appropriately treated as transfers and are included in the results of operations of both governmental and proprietary funds. Nonrecurring and non-routine transfers of equity between funds - for example, contribution of capital assets to a proprietary fund or transfers of residual balances of discontinued funds to other funds - are accounted for as transfers.

**c. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the governmental funds represent cash and cash equivalents and investments set aside for specific capital additions, and various bond covenants. Restricted assets in the proprietary funds represent cash and cash equivalents and investments set aside for repayment of deposits to utility customers, specific capital, additions, and various bond covenants.

Customer deposits received for the water and wastewater service are, by law, to be considered restricted assets. These activities are included in the Water and Sewer Funds.

**d. Capital Assets**

Capital assets, which include land, buildings, equipment, and improvements, purchased or acquired, are in the applicable governmental or business-like activities columns in the government-wide financial statements and proprietary fund types. The City defines capital assets as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical if historical cost is not available. Contributed assets are recorded at fair market value as of the date donated. Additions, improvements, and capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Net interest incurred during the construction phase of capital assets of business-like activities is included as part of the capitalized value of the assets constructed. The City capitalized interest of \$18,521 in the current fiscal year.

Management elected not to retroactively report infrastructure assets within the scope of GASB Statement No. 34.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Infrastructure	15 - 40
Building & Improvements	10 - 40
Machinery and equipment	5 - 20

**e. Compensated Absences**

It is the City's policy to permit employees to accumulate earned but unused vacation, overtime not paid (comp time) and sick pay benefits. All vacation and comp time is accrued at the close of the fiscal year in the government-wide and proprietary fund financial statements. An employee's sick pay accrual does not begin until they have been employed with the City for ten years and a maximum of 480 hours is accrued.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

A. Summary of Significant Accounting Policies

4. Financial Statement Amounts (continued)

f. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method and netted with the long term obligations in the liabilities. The City has compared this method to the effective interest method and found the difference between the two methods to be immaterial. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed during the year they are incurred in accordance with GASB Statement No. 65.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financial sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

g. Deferred Outflows/Inflows of Resources

In addition to assets, the fund balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenses/expenditures) until then. The City does not have any deferred outflows of resources for the current fiscal year.

In addition to liabilities, the fund balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of a net position that applies to that time. The City has only one type of deferred inflow of resources in the governmental fund financial statement. Deferred revenue from property taxes is deferred and recognized as an inflow of resources in the period that the amounts become available.

h. Fund Balance Policies

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent:

- *Nonspendable fund balance* - includes the portion of net resources that cannot be spent because of their form (i.e. inventory, long-term loans, or prepaids) or because they must remain intact such as the principal of an endowment.
- *Restricted fund balance* - includes the portion of net resources on which limitations are imposed by creditors, grantors, contributors, or by laws or regulations of other governments (i.e. externally imposed limitations). Amounts can be spent only for the specific purposes stipulated by external resource providers or as allowed by law through constitutional provisions or enabling legislation. Examples include grant awards and bond proceeds.
- *Committed fund balance* - includes the portion of net resources for which the City Council has imposed limitations of use. Amounts that can be used only for the specific purposes determined by a resolution of the City Council. Commitments may be changed or lifted only by a resolution of the City Council. The resolution must be approved before the end of the fiscal year in which the commitment will be reflected on the financial statements.
- *Assigned fund balance* - includes the portion of net resources for which an *intended* use has been established by the City Council or the City Manager authorized to do so by the City Council. Assignments of fund balances are much less formal than commitments and do not require formal action for their imposition or removal. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed which indicates that resources are, at a minimum, intended to be used for the purpose of that fund.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

A. Summary of Significant Accounting Policies

4. Financial Statement Amounts

h. Fund Equity (continued)

- *Unassigned fund balance* - includes the amounts in the general fund in excess of what can properly be classified in one of the other four categories of fund balance. It is the residual classification of the general fund and includes all amounts not contained in other classifications. Unassigned amounts are technically available for any purpose. Negative residual amounts for all other governmental funds are reported in this classification.

i. Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

j. Fund Balance Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements is a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

k. Comparative Data/Reclassification

Comparative total data for the current year to budget have been presented in the supplementary section of the financial statements in order to provide an understanding of budget to actual. Also, certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

l. Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consideration. Services provided, deemed to be a market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges in appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position. The government did not have any Internal Balances at fiscal year end.

m. Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of management's estimates.

n. Program Revenues

Certain revenues such as charges for services and impact fees are included in program revenues.

o. Program Expenditures

Certain indirect costs such as administrative costs are included in the program expenditures reported for individual functional activities.

**CITY OF CANTON, TEXAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**B. Compliance and Accountability**

1. Finance-Related Legal and Contractual Provisions

In accordance with GASB Statement No. 38, "Certain Financial Statement Note Disclosures," violations of finance-related legal and contractual provisions, if any, are reported below, along with actions taken to address such violations.

<u>Violation</u>	<u>Action Taken</u>
Debt Service Fund	Shortfall in budget of (\$633) for interest was covered by fund balance.

2. Deficit Fund Balance or Fund Net Position of Individual Funds

Following are funds having deficit fund balances or fund net position at year end, if any, along with remarks which address such deficits:

<u>Fund Name</u>	<u>Deficit Amount</u>
None reported	No applicable

3. Budgets and Budgetary Accounting

The City adopts an "appropriated budget" of governmental fund types on the Generally Accepted Accounting Principles ("GAAP") basis of accounting by department. The City is required to present the adopted and final amended budgeted revenues and expenditures. The City compares the final amended budget to actual revenues and expenditures.

The following procedures are followed in establishing the budgetary data:

- No later than the first City Council meeting each August, the City Manager submits to the City Council a proposed budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to September 30, the budget is legally enacted through passage of an ordinance. If the Council takes no action on or prior to such day, the budget, as submitted by the City Manager, shall be deemed to have been adopted by the City Council.
- Budgets for the General Fund and Debt Service Fund are legally adopted on a basis consistent with GAAP. The majority of the City's Capital Projects Funds are budgeted on an annual basis.
- According to the Local Government Code for General Law A cities, total estimated expenditures of the General Fund and Debt Service Fund are to be budgeted.
- The level of control (the level at which expenditures may not exceed budget) is the fund level. The City Manager is authorized to approve a transfer of budgeted amounts within departments; however, any revisions that alter the total of any fund must be approved by the City Council.

**C. Cash and Investments**

The City's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the City's agent bank approved pledged securities in an amount sufficient to protect the City funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository banks dollar amount of Federal Deposit Insurance Corporation ("FDIC") Insurance.

**CITY OF CANTON, TEXAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED SEPTEMBER 30, 2013**

C. Cash and Investments (continued)

Cash Deposits

At September 30, 2013, the carrying amount of the City's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$6,262,288, and the bank balance was \$6,830,538. The City's cash deposits at September 30, 2013 and during the year ended September 30, 2013 were entirely covered by FDIC insurance or by pledged collateral held by the City's agent bank in the City's name. The amount of deposits covered by collateralized securities was \$6,651,947. Cash and investments as of September 30, 2013 consist of and are classified in the accompanying financial statements as follows:

**Statement of net position:**

Primary Government	
Cash and cash equivalents	\$ 3,607,613
Restricted assets-cash & cash equivalents	2,654,675
Total cash and cash equivalents	<u>\$ 6,262,288</u>
 Governmental - Restricted cash	
Municipal Court - technology, building security	\$ 38,213
Debt Service	1,001,760
Capital improvements	87,861
Flex	6,871
	<u>\$ 1,134,705</u>
 Business-type - Restricted cash	
Customer Deposits	\$ 78,115
Debt Service	100,542
Capital Projects	1,341,313
	<u>1,519,970</u>
Total Restricted Cash	<u>\$ 2,654,675</u>

Investments:

The Public Funds Investment Act ("Act") (Government Code Chapter 2256) requires the City to have an independent auditor perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

Investment Accounting Policy

The City currently has a "buy and hold" portfolio strategy. Maturity dates are matched with cash flow requirements and investments are purchased with the intent to be held until maturity. However, investments may be liquidated prior to maturity due to an investment having a declining credit or cash flow needs of the City.

The City has options for investments of City funds: certificates of deposits that are issued by a bank organized under Texas law, the laws of another state, or federal law, that has its main office or a branch office in Texas, or by a savings and loan association or a savings bank organized under Texas law, the laws of another state, or federal law, that has a main office in Texas and that is guaranteed or insured by the Federal Deposit Insurance Corporation or its successor or secured by obligations in a manner and amount provided by law for deposits of the City.

Local government investment pools, which meet the requirement of Chapter 2256.016 of the Public Funds Investment Act, are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service, and seek to maintain a \$1.00 net asset value and are authorized by resolution of the City Council.

**CITY OF CANTON, TEXAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED SEPTEMBER 30, 2013**

C. Cash and Investments (continued)

Investment in State Investment Pools

The City is a voluntary participant in Texpool. The Texas Local Investment Pool is a local government investment pool which operates in a manner consistent with SEC's Rule 2a7 of the Investment Company Act of 1940. This type of investment pool uses amortized costs rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in these pools is the same as the value of the shares in each pool. The Texas Local Government Investment Pool is organized in conformity with the Interposal Cooperation Act, Chapter 791 of the Texas Government code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Pool is governed by an Advisory Board composed equally of participants in the Pool and other persons who do not have a business relationship with the Pool who are qualified to advise the Pool.

The State Comptroller of Public Accounts exercises oversight responsibility over Tiepolo, the Texas Local Government Investment Pool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in Tiepolo and other persons who do not have a business relationship with Tiepolo. The Advisory Board members review the investment policy and management fee structure. Finally, TexPool is rated AAAM by Standard and Poor's. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard and Poor's, as well as the office of the Comptroller for public review.

Disclosure relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. Currently, the City does not have any investments inherent to interest rate risk.

As of September 30, 2013, the City had the following investments:

<u>Investment Type</u>	<u>Amount</u>	<u>Weighted Average Maturity</u>
Texpool	<u>\$ 1,800,013</u>	<u>55 days</u>

Custodial Credit Risk

To control custody and safekeeping risk, State law and the City's adopted investment policy require collateral for all time and demand deposits, as well as collateral for repurchase agreements, be transferred delivery versus payment and held by an independent party approved by the City and held in the City's name. The custodian is required to provide original safekeeping of receipts and monthly reporting of positions with position descriptions including market value. Repurchase agreements and deposits must be collateralized to 102% and be executed under written agreements. Depository agreements are executed under agreements. Depository agreements are executed under the terms of U.S. Financial Institutions Resource and Recovery Enforcement Act ("FIRREA"). The counter-party of each type transaction is held contractually liable for monitoring and maintaining the required collateral margins on a daily basis.

The City strives to minimize credit risk, the risk of loss due to the failure of the issuer or backer of the investment by limiting investment to the safest types of investments, pre-qualifying the financial institutions in which the City will do business, and diversifying the investment portfolio so that potential losses on individual issuers will be minimized.

D. Property Taxes

Property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and personal property located in the City. Assessed value represents the appraisal value less applicable exemptions authorized by the City Council. The Appraisal Board of Review establishes appraised values at 100% for estimated market value. A tax lien attaches to the property on January 1 of each year to secure the payment of all taxes, penalties, and interest ultimately imposed for the year on that property, whether or not the taxes are imposed in the year the lien attaches.

Revenues are recognized as the related ad valorem taxes are collected. Additional delinquent property taxes estimated to be collectible within sixty days following the close of the fiscal year have been recognized as revenue at the fund level.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

D. Property Taxes (continued)

In Texas, county-wide central appraisal districts are required under the Property Tax Code to assess all property within the appraisal district on the basis of 100% of its market value and are prohibited from applying any assessment ratios.

The value of property within the appraisal district must be reviewed every five years; however, the City may, at its own expense, require annual reviews of appraised values. The City may challenge appraised values established by the appraisal district through various appeals, and, if necessary, take legal action. Under this legislation, the City continues to set tax rates on City property. However, if the effective tax rate, including tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 8%, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than 8% above the tax rate of the previous year.

The statutes of the State of Texas do not prescribe a legal debt limit. However, Article XI, Section 5 of the Texas Constitution applicable to cities of more than 5,000 population limits the ad valorem tax rate to \$2.50 per \$100 assessed valuation. The City's 2013 ad valorem tax rate of \$0.42523 is in compliance with the rate limitation.

E. Receivables

Receivables as of year-end for the City's individual major funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Proprietary</u>	<u>Debt Service</u>	<u>Total</u>
Receivables				
Taxes	\$ 408,741	\$ -	\$ 33,151	\$ 441,892

Fees and Charges	-	211,163	-	211,163
	<hr/>	<hr/>	<hr/>	<hr/>
Gross Receivables	989,181	211,163	33,151	1,233,495
Less: Allowance for Uncollectible	<u>(554,257)</u>	<u>(15,218)</u>	<u>-</u>	<u>(569,475)</u>
Total Net Receivables	<u>\$ 434,924</u>	<u>\$ 195,945</u>	<u>\$ 33,151</u>	<u>\$ 664,020</u>

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**F. Notes Receivable**

In May 2010, the Canton Economic Development Corporation agreed to pay the costs of the water well improvements by remitting to the City from the receipts of local sales and use taxes received by the Corporation to pay the principal and interest on the 2010 Series Revenue Bonds. This was approved by a vote by the citizens of the City of Canton. Below is the detail on this note receivable.

In December 2011, the Canton Economic Development Corporation agreed to pay the costs of the construction of a water storage tower that has been financed from the proceeds of the City of Canton's Combination Tax and Revenue Certificates of Obligation, Series 2011 by remitting to the City from the receipts of local sales and use taxes received by the Corporation to pay the principal and interest. This was approved by a vote by the citizens of the City of Canton. Below is the detail on this note receivable.

	Beginning Balance	Issued	Decreases	Ending Balance	Receive within one year

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

H. Long-Term Obligations (continued)

Compensated Absences

Compensated absences represent the estimated liability for employees' accrued compensatory time and vacation leave which employees are entitled to be paid upon termination of employment if all requirements are met as stated in the personnel manual adopted by City Council. The retirement of this liability is typically paid from the General Fund and the Proprietary Funds based on the assignment of an employee at termination.

I. Construction Commitments

The City has several active construction projects as of September 30, 2013. The projects include street infrastructure improvements, construction of water storage facility, and wastewater plant improvements.

<u>Project</u>	<u>Spent-to- Date</u>	<u>Remaining Commitment</u>
Water tower	\$ 709,759	\$ 1,221,657
High service pumps upgrade	32,440	-
Highway 19 water main	34,941	-
Tyler St to Wynne Rd water main	900	38,100
Water well #3 pump station	173,555	-
Sidewalk Project	27,924	15,060
	<u>\$ 979,519</u>	<u>\$ 1,274,817</u>

J. Operating Leases

The City has operating leases for office equipment and a building that is leased in the First Monday Fund. The building lease is the largest of the leases which is \$5,000 a month for 20 years. Lease obligations are as follows:

<u>Year End Sept 30</u>	<u>Annual Lease Payment</u>
2014	\$ 66,743
2015	66,743
Total	<u>\$ 133,486</u>

K. Pension Plan

1. Plan Description

The City provides pension benefits for all its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System ("TMRS"), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information ("RSI") for TMRS; the report also provides detailed explanations of the contributions, benefits, and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at [www.TMRS.com](http://www.TMRS.com).

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**K. Pension Plan**

**1. Plan Description (continued)**

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Plan provisions for the City were as follows:

	Plan Year	
	2012	2013
Employee Deposit Rate:	7%	7%
Matching Ratio (City to Employee):	2 to 1	2 to 1
Years required for vesting	5 yrs	5 yrs
Service retirements eligibility (expressed as age/years of service)	60/5, 0/20 100%	60/5, 0/20 100%
Updated Service Credit	Repeating, Transfers 30% of CPI	Repeating, Transfers 30% of CPI
Annuity Increase (to retirees)	Repeating	Repeating

Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect.

**2. Contributions**

The required contribution rates for fiscal year 2012 were determined as part of the December 31, 2010 and 2011 actuarial valuations. Additional information as of the latest actuarial valuation, December 31, 2012, also follows:

	12/31/10	12/31/11	12/31/12
Actuarial cost method	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit
Amortization method	Level % of payroll	Level % of payroll	Level % of payroll
GASB25 Equivalent Single Amortization period	27.1 years; closed	26.1 years; closed	25.1 years; closed
Amortization period for new gains/losses	30 years	30 years	30 years
Asset Valuation method	10-yr smoothed market	10-yr smoothed market	10-yr smoothed market
Actuarial assumptions:			
Investment rate of return *	7.0%	7.0%	7.0%
Projected Salary Increases *	varies by age & service	varies by age & service	varies by age & service
* Includes Inflation of Cost-of-Living adjustments	3% 0.9%	3% 0.9%	3% 0.9%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**K. Pension Plan**

2. Contributions (continued)

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The schedule of funding progress, presented as Required Supplementary Information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

Schedule of Funding Progress:

Actuarial Valuation Date	12/31/10	12/31/11	12/31/12
Actuarial Value of Assets	\$ 4,478,926	\$ 4,950,942	\$ 5,544,706
Actuarial Accrued Liability	5,938,320	6,308,031	6,702,315
Percentage Funded	75.4%	78.5%	82.7%
Unfunded (Over-funded) Actuarial Accrued Liability (UAAL)	1,459,394	1,357,089	1,157,609
Annual Covered Payroll	2,120,124	2,200,850	2,326,853
UAAL as a Percentage of Covered Payroll	68.8%	61.7%	49.7%
Net Pension Obligation (NPO) at the Beginning of Period	\$ -	\$ -	\$ -
Annual Pension Cost:			
Annual required contribution (ARC)                    Plus	302,456	318,889	286,991
Contributions Made                                       Less	(302,456)	(318,889)	(286,991)
NPO at the end of the period	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

3. Group-term Life Insurance

The City also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the TMRS known as the Supplemental Death Benefits Fund ("SDBF"). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit", or OPEB.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2013, 2012 and 2011 were \$5,369, \$6,217 and \$4,664, respectively, which equaled the required contributions each year.

**L. Health Care Coverage**

During the year ended September 30, 2013, employees of the City were covered by a health insurance plan ("Plan"). The City contributed \$489.70 per month per employee and \$100 of the cost for dependents. Employees, at their option, authorized payroll withholdings to pay contributions for dependents. All contributions were paid to the insurance carrier. The Plan was authorized by article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

**CITY OF CANTON, TEXAS  
 NOTES TO THE FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED SEPTEMBER 30, 2013**

**M. Insurance Coverage**

In accordance with state statute, the City was protected against unanticipated catastrophic individual or aggregate loss by stop-loss coverage carried through Texas Municipal League, a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Stop-loss coverage was in effect for individual claims up to \$125,000 and for aggregate loss. According to the latest actuarial opinion dated October 1, 2012, the unfunded claim benefit obligation included no reported claims that were unpaid and no estimated claims incurred, but not reported.

**N. Risk Management**

The City is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City had general liability coverage at a cost that is considered to be economically justifiable by joining together with other governmental entities in the State as a member of the Texas Municipal League Intergovernmental Risk Pool ("TML"). TML is a self-funded pool operating as a common risk management and insurance program. The City pays an annual premium to TML for its above insurance coverage. The agreement for the formation of TML provides that TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of acceptable risk levels; however, each category of coverage has its own level of reimbursement. The City continues to carry commercial insurance for other risks of loss. There were no significant reductions in commercial insurance coverage in the past fiscal year and settled claims resulting from these risks have not exceeded coverage in any of the past three fiscal years.

**O. Litigation**

The City is party to a legal proceeding arising in the ordinary course of its operations. It is believed by management that a favorable outcome to the City is likely.

**P. Additional Water and Sewer Information**

The following information is included at the request of the Texas Water Development Board for the year under audit. Water Accountability Report:

Gallons Pumped	281,210,000
Gallons Billed	192,772,145

**Q. Prior Period Adjustments**

Governmental	<u>\$ 37,772</u>	To correct transfers and fund balances
Business-type	<u>\$ (28,385)</u>	To correct transfers and fund balances

**R. Interfund Transfers**

Transfers between funds during the year were as follows:

<u>Transfers Out</u>	<u>Transfers In</u>		
	<u>General Fund</u>	<u>Nonmajor Gov Funds</u>	<u>Water and Sewer Funds</u>
First Monday	\$ 497,000	\$ 43,000	\$ 395,680

Water and Sewer	-	54,585	-
	<u>\$ 497,000</u>	<u>\$ 296,490</u>	<u>\$ 395,680</u>

**CITY OF CANTON, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED SEPTEMBER 30, 2013**

S. Related Party Transactions

A City vehicles was purchased in the amount of \$26,800 from the spouse of a City employee who works for a car dealership. The appropriate bids were received and approval of the vehicle purchase was documented in accordance with the City's purchasing policy.

T. Subsequent Events

The City has evaluated all events or transactions that occurred after September 30, 2013 up through March 18, 2014, the date the financial statements were available to be issued. Management noted no subsequent events requiring disclosure.

(UNAUDITED)**

## STATISTICAL SECTION

This part of the City of Canton's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes, disclosures, and required supplementary information says about the City's overall financial health. This information has not been audited by the independent auditor.

<b><u>Contents</u></b>	<b>Table #s</b>
<b>Financial Trends</b> These tables contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	1,2,3,4,5
<b>Revenue Capacity</b> These tables contain information to help the reader assess the City's two most significant local revenue sources, the property, and sales taxes.	6,7,8,9
<b>Debt Capacity</b> These tables present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	10,11,12,13,14
<b>Economic and Demographic Information</b> These tables offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	15,16
<b>Operating Information</b> These tables contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides.	17,18,19

**Source:** Unless otherwise noted, the information in these tables is derived from the Comprehensive Annual Financial Reports for the relevant year. The City implemented GASB Statement 34 in fiscal year 2004: tables presenting government-wide information include information beginning that year.

Per capita overlapping bonded debt			<u>\$5,416</u>

**Source:** "Texas Municipal Report" as of September 30, 2013, prepared by the Municipal Advisory Council

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Canton. This process recognizes that, when considering the City of Canton's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using the taxable assessed property values. Applicable percentages were estimated by determining the portion of the overlapping government's taxable assessed value that is within the City of Canton's boundaries and dividing it by the overlapping government's total taxable assessed value.
