The Mayor also stated that some of the members had misunderstood the writing in the paper when the Mayor stated he wanted the V. F. W. out that he only meant he wanted the V. F. Mr. Jimmie Jones and Jim January met with the council on the streets in the Tanglewood Addition. Mr. Jones stated according to our ordinance that the streets would be comparible to Interstate 20. The Mayor noted the letters in each one of the councilmen's folders on attracting new industries to our city. He stated he would not write any more letters without the approval of the council.

Sam Hilliard stated he felt the city should pay their bills by the 10th of each month.

First Monday Revenue was discussed. The Mayor stated for the past eighteen months, the Council had saved the First Monday money for the lake. He stated that due to the rising costs on the lake, the City Council felt this was the only way to enable the city to build the lake without voting another bond. Even though this was very unpopular action at the time, the council felt this was the best action. Mayor Lewis stated this policy forced the city this past fall to raise water and sewer rates to meet our bond indebtedness since First Monday money was set aside for the lake. In past years, the First Monday money was put into the Water and Sewer Operating Fund to operate the city which was the reason the water rates had not been raised in the past. The Mayor stated he felt the Water and Sewer Fund and the Tax Fund should stand on its own and the First Monday not be used in the operation of the city until the last expense on the lake was determined. He felt First Monday money should still be saved since we have no idea how much the final amount will be. Sam Hilliard stated he felt we should not continue to save the First Monday money, but that we should put our monthly income from First Monday from now on into the Water and Sewer Operating Fund which

would enable us to lower water bills since by putting this First Monday money into this account, it would build up a surplus in our Water and Sewer Operating Fund if we did not lower the water rates. Dennis Mann recommended that we save the First Monday money, but if we needed it not to increase the water rates as we were forced to do last fall due to our bond indebtedness, but just transfer it as needed into the Water and Sewer Operating Fund.

Mayor Lewis recommended that we accept Dennis Mann's recommendation to continue to save the First Monday money on a monthly basis to be put into the First Monday Fund. Dennis Mann made the motion that the Mayor's recommendation be adopted and Billy Jack Peace, Jr. seconded the motion. All in favor.

Mrs. Lillie Burns requested that hand rails be installed at J. B. White and Guess Cleaners. Gerald was advised to contact Mr. Pruitt and Mr. Guess and see if they would install hand rails at these locations and Mr. Hilliard stated if they would not, that he would furnish the pipe at no expense to the City.

Gerald Turner reported that Bernard Weatherall had requested \$150 damage to his property when we had repaired the sewer line going to the sewer plant. Sam Hilliard made the motion that we authorize Gerald to settle with Mr. Weatherall for the cheapest price so long as it did not exceed \$150 and Dennis Mann seconded the motion. All in favor.

J. B. White Company requested a loading zone at his business. Herman Heard made the motion that we authorize Gerald to take care of this matter and Russell Eubank seconded the motion. All in favor.

the well to see what it will produce before we decide anything else concerning the well. Gerald is to see what a new hydraulic pump will cost for the old dump truck and fire, theft insurance on the new tractor. Bids on the insurance to be brought to the next meeting.

A six inch water line from the water tower on Highway 19 to corner of Highway 243 and Highway 19 connecting to the northeast corner of these two highways were discussed. Sam Hilliard made the motion that Gerald be authorized to lay this line and Dennis Mann seconded the motion. All in favor.

Herman Heard stated Mr. Leo Stone would like to work 1 or 2 days a week for the City. Mr. Sam Hilliard stated that the curbon Highway 19 near the Service Cafe was ruining the business of these businesses. This was discussed and will be taken care of at a later date.

Mr. B. W. Ward was present at the meeting and the council asked him to check into the towns of Grand Saline and Edgewood participating in paying of the night dispatcher. Mr. Ward stated he had checked with these cities earlier but that he would contact them again concerning this matter.

The Council went into executive session at this time. A motion was made and seconded that Vicker's be put on city payroll until he leaves and Hoss will look for an applicant to replace him and present them to the Council. On Denton's job, it was decided we would try it one month at \$500 per month and report back at the next meeting.
